STANDARD SASH

DECORATIVE SASH

GOLDEN OAK

ROSEWOOD

The beautiful sculptured shape adds a stylish elegance to both windows and doors, inside and out. The **3000 zendow** also takes advantage of the Deceuninck revolutionary new weatherseal, which is a significant step forward in weather proofing technology.

Woodgrain

To give your windows a more natural look, you can take advantage of the beautiful wood grain effect finishes.

The **3000 zendow** is available in a choice of Golden Oak and Rosewood.

Colour

You can change the look of your home even further by adding a splash of colour with the unique and durable Decoroc surface coating system.

You can choose from a wide range of colours.

The 3000 **zendow** is a revolutionary system from one of the world's leading producers of PVC-U profile systems. Years of research and development have resulted in a window and door system that is both technically advanced with high performance, to improve the comfort of your home.

Weather performance

The 3000 **zendow** multi-functional weatherseal is at the cutting edge of modern design and material technology. Manufactured from high performance thermoplastic elastomers, the unique design and incorporated features ensure unrivalled weather performance. The new weatherseal is welded at the corners, providing an all-round seal, further improving the insulating properties of the product. This ingenious design enables a significant reduction in the everyday strain placed on the hardware, which in turn increases the lifespan of the window.

3000 **zendow** MULTIFUNCTIONAL WEATHERSEAL

Security

The 3000 **zendow** window and door system is fully compatible with all standard security hardware and also has several elements incorporated into its unique design to further enhance security. Every effort has been made to ensure your new windows and doors keep your home secure and the undesirable elements out. The 3000 **zendow** has been tested to, and has achieved, the following accreditations:

BS 7950:1997 (enhanced security performance, windows)

PAS 24-1:1999 (enhanced security performance, doors)

Insulation

The 3000 **zendow** is designed to comply with all current Building Regulation requirements. The advanced features provide superb insulation and weather performance, as you would expect from one of the world's leading producers of PVC-U window systems. The system has been tested to, and has achieved, the following accreditations:

BS 7412:2002 (weather performance for windows)

BS EN 12567-1:2000 (thermal performance, windows and doors)

CROSS SECTION OF 3000 **zendow** WINDOW

Requirement for reinforcement is dependent on window type and configuration. Deceuninck have had tested and hold the following kitemark licences:

BS 7950:1997
KM 33904

PAS 24-1:1999
KM 57124

BS 7412:2002
KM 25857

our success is measurable...
